

Alberta,

Your extension is granted. Attached to this letter is a group recently under contract. The "Witch's Bitches" have supplied the guild with extremely valuable knowledge from the lost civilizations of this land, and have expeditiously wrapped up a rather complicated bit of business in the city. They are proven warriors and must be deft explorers to have brought us this boon. I believe they are just the sort of support you need at this time. Take them upriver, travel to this mound, uncover its secrets, but you must return to Harport before winter. Be advised of the Thetis' return on October 20th, as the brokenkeel fjords are unsafe to sail much further beyond that date.

Stay safe,

Ambrose Pence

Headman of the Harport Cartographer's Guild
